Socratic online or app

www.socrative.com

Create a quiz

1. Open www.socrative.com
2. Create a free account.
3. You will receive an email with confirmation from Socratic.
4. Open socrative.com. This is the teacher side of Socratic.
5. You will be given a Room Number that you give to your students when you want them to access one of your quizzes. This number can be changed in My Profile under My Account.

6. Select Manage Quizzes under Create, Edit, and Import Quizzes.

7. Click on Create a Quiz.
8. If you want to share your quiz with other teachers, place a check in the box next to Enable Sharing. If you do not want to share the quiz, remove the check.

9. Give the quiz a name next to Quiz Name.
10. Select the type of question you want – Multiple Choice, True/False or Short Answer.
11. Multiple Choice – type in your question and up to five answer choices. Place a check in the correct answer.
12. Short Answer – write the question.
13. Click on another question type, complete the question and repeat until all questions are entered.
14. Click Save.

*If you want to add an image to a question, click on Add Image and Browse your computer to find the image.

Student Directions

1. Open m.socrative.com.
2. Enter your Room Number.
3. Click Join Room.
4. The following message will appear: “Waiting for teacher to start an activity...” (The teacher has control of when the quiz begins).
5. The students will first be asked to enter their name.

Run a Quiz

1. Return the Main Screen (link is in the top, left corner).
2. The number of students who are logged into your room will appear in the top, right corner of your screen.
3. Select Start Quiz under Quiz-based Activities.
4. Choose the quiz you want to administer from the drop-down menu.
5. Decide if you want to Random Answer Choices, Disable Immediate Right/Wrong Feedback and Hide Question Explanations.
6. Choose Student Paced if you want the questions to appear on the students’ devices as soon as they complete the previous question or choose Teacher-Paced if you want to control when the students see the questions. The quiz will automatically display on the student devices.
7. If you click Show Live Results, you can the progress of your students.
8. Click End Activity to stop the quiz.
9. You will have the option of having the results emailed or downloaded if you want.
10. If the results are downloaded, they will appear in an Excel spreadsheet.

**Single Question Activities**
1. You can ask one Multiple Choice, True/False or Short Answer question orally or have the question written on the board.
2. The students will first be asked to enter their name.

![Single Question Activities](image)

**Space Race**
1. Socrative will randomly assigns students to groups.
2. Select the number of groups.
3. A rocket will move one space forward for each correct answer.
4. Students will see the color of their team rocket on their device, but will not be able to tell who is on their team.

**Exit Ticket**
An Exit Ticket is a great way to check student understanding at the end of class. It asks students a series of quick questions, and sends the results in a report.
Here's what an Exit Ticket Includes:
1. Name
2. How well did you understand the material (multiple choice)?
3. What did you learn today (free response)?
4. Please solve the problem on the board (free response)? You'll see when the students have completed the Exit Ticket, and when they're done, hit "End Activity" and choose how to receive the results.
