Symbaloo is a personal learning environment for teachers and students. It is similar to Pinterest, however, there is an educational version that is safe for students to use.

2. Create a free account, then login to Symbaloo.
3. Click on Add a webmix in the top of your screen.
4. Type a title for your webmix under Add an empty webmix.

5. Make sure the radio button under I will use this webmix for: is checked next to Tiles. Click Add.
6. Type the name of a website in the Search for tiles box on the top, right side of your computer screen and click the magnifying glass.

7. If there is a tile for the website, it will appear in a window across the top. In this example, CNN was typed in the Search for tiles box.

8. Click on the image that represents the website you want to use and it will be placed in your webmix. You can click and drag the tile if you want to move it.
9. If there is not a tile already created for the website you want to add, click on a blank tile. A message will appear.
10. Select Click here to create your own tile.
11. Type the URL (web address) for your tile, add a Name for the tile, select a text color, tile color and an icon. You can add your own image instead of an icon if desired.
12. Click Add tile to webmix.
13. The new tile will appear in a banner across the top of the window.
14. Click and drag the tile to your webmix.
15. Select Edit webmix to change the wallpaper or rename the webmix.
16. Click Share to access the URL (web address) that will need to be added to the iPads of your students.

17. To delete a webmix, select the Delete webmix tab. You will be asked if you are sure you want to delete the webmix. Click OK if you want to delete the webmix.

**Placing the Webmix on Student iPads**
1. Open Safari on the iPad and access the URL of the webmix.
2. Click on the arrow to the left of the URL.
3. Select Add to Home Screen.
